Fire Protection Engineer Application

Permit Application No. _____

Fire Protection Engineer Information:

Name: _____

Professional License Number: _____

Firm: _____

Project Address: _____

Fire protection systems review and inspections

In accordance with provisions of the Florida Building Code, Building 2010 and Florida Fire Protection Code 2010 the Authority Having Jurisdiction may require a Fire Protection Engineer to review, inspect and certify engineered fire protection systems.

Attachments Required:

1. Proof that the fire protection engineer is a person certified, licensed or registered under chapter 471 as an engineer. The engineer of record may act as the inspector if he or she provides proof that they are on the Board of Professional Engineer's list of persons qualified to be a special inspector with extensive experience in fire protection systems.
2. Qualification statements and/or resumes of fire protection engineer and all duly authorized representatives.
3. Fire protection systems inspection plan reviewed by the engineer of record.

I acknowledge that upon completion of the building and prior to issuance of a certificate of occupancy, I must file a signed, sealed statement with this enforcement agency that the fire protection systems described in the inspection plan comply with the permitted documents.
