On this 9<sup>th</sup> day of December 2011, I, Thomas R. Wood, in my official capacity as Chief of Boca Raton Fire Rescue Services and representing the City of Boca Raton, Florida, do take possession of this steel artifact which was once part of the World Trade Center. The artifact is being offered on behalf of the "We Will Never Forget 911 Foundation" by Ray Lebowitz, Deputy Director. I understand that the artifact is considered sacred to our nation's history. I affirm that we have neither paid for nor will we sell any part of this priceless relic. I fully understand that the security of the steel is incumbent upon me until installed in its proper place as part of a memorial to those who died in the attacks of 9-11-2001.
